DETAILED ACTION

Allowable Subject Matter

Claims 1 – 3 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to disclose preventing access to services provided on subscription basis by a second provider until after the subscription from the first provider is put into use for the first time and after the subscription has continued to be used until a later second time.

The prior art Shirai reference fails to teach disclose preventing access to services provided on subscription basis by a second provider until after the subscription from the first provider is put into use for the first time and after the subscription has continued to be used until a later second time.

It is further noted that in the telecommunications art, a user can get free cellular phone by subscribing to a contract from a first time to a second time i.e. one year. The cellular provider deters a user from early cancellation of the contract by enforcing a early termination fee. However, this still does not prevent a user from canceling service with the provider and subscribing to the second provider if the user pays the early termination fee. Furthermore, if the user is permitted access to services provided on a subscription basis by a first provider, this does not preclude a user or prevent the user

from access to a second provider i.e. if the user desires two cellular phones with contracts with two different providers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
